Student Life

Student life here at H.H.S. is closely related to the community around it. This makes being a student at H.H.S. a very unique experience because of the activities involved throughout the high school and community. Some of the activities are the blood donation, the walk-a-thon for March of Dimes and Sickle Cell Anemia, the Little League Baseball games and the Legion dances. Many students gain and share these experiences within the school community. Although only four years are devoted, many continue this association throughout their life. There is always a little space for a memory.

Dedication of 1979-80

"No man is an island," said poet John Donne. I believe every man is an island, but there are no limits to the bridges and harbors one can build."

— Roy C. Cook

For the bridges he has created with students and his fellow teachers, for his many years of involvement at HHS, the 1979-8C Susquehannock gratefully acknowledges Mr. Robert Varlas.

A good place to start is the Army National Guard. You see, this is the best time of year to join the Guard. You can go right into training and advanced technical school with no waiting around.

And you'll be home before you know it. With a skill. And a good-paying part-time job, to boot. More than $50 for one weekend a month. And that's just for starters.

Get a head start on your future. Get yourself going in the Army Guard. Now.

Pres. T. Watson, V. Pres. T. Scarborough, Sec. D. Burcham, Tres. P. Cillo.

This year the Drama Club was made up of mostly underclassmen, with the exception of two Seniors. The actors in the club showed a lot of potential and talent.

For their Fall Production, TELL ME THAT YOU LOVE ME JUNIE MOON, by D.D. Brooke was performed very well by the group. They did an outstanding job! It is always fascinating to discover new talent and watch it grow. Mr. Osman, the club's sponsor, aides the club in performing and the production of such plays. The Drama Club owes a great deal of thanks to Mr. Osman, without him the Drama Club would never have been this successful!

ABILITY COUNTS

("Speaking Out — Voices of Disabled People")

I may not be able to walk up stairs or curbs, but I can climb mountains; mountains of prejudice and pity. Can you do that? I may not be able to read beautiful literature or have the sight to see applications or lyrics to a song, but I can appreciate the writings of an artist, and I can sing a love song more deeply and intensely than two people in love. Can you do that?

Yes, I shudder and find it difficult to say things on the level that you do and I may only be able to do small tasks, but I do know how to say thank you, I love you, and please. Can you always do that?

I may not be able to hear all the things that you say to me but if you face me, I can read your lips and I will write to you to communicate. Can you take the time to face me?

I have the ability to smile when people laugh at me. I have the ability to turn around when doors won't open for me. Yes, I have the courage to try over again but do you have the courage to treat me as your fellow man?

I may need mechanical devices to help me through the day but you do not need anything to frown and turn away. I have the ability to laugh, to cry, to wish, to want, to play, to work, to love, to hate, to search, and to find. I also have the ability to learn and to understand things that are hard for me. I don't need your pity, mercy or sympathy but I do need your help to find a job for me. Find me a place where I can be helpful and useful. Find me a way that I can be a crutch for society instead of society being a crutch for me. I may need a special kind of door to go through, but if I can enter I will be of some benefit to you. I may not see through my eyes as you do but my mind functions in every normal way, it has to!

I must be given a chance, before I can succeed and every human being be he blind, handicapped or retarded or physically and mentally healthy must be given the chance to succeed, a chance to be caring, a chance to be learning and a chance to be working. When you think of Justice please think of just us because we're being robbed of the liberty to wheel our chairs through office doors and to the freedom of challenge. Handicapped doesn't mean NOT ALIVE nor does it mean SHUT AWAY! It just means I can help or be helped in a special way. Don't think of me as slow, deaf or blind. Think of me as different. Difference does not constitute disapproval.

I need the recognition as a person, an individual who will strive to do the best. Treat me as a whole person not half a person for I am willing to be the determined, successful person who is essential to any employer, organization or agency that needs me. Do not call me disabled because I am NOT a person of no ability. Although I may be missing limbs, eyesight, mental capacity, or hearing, I can still use many other abilities and resources that I do have.

I CAN WORK, if given the opportunity! I CAN BE HELPFUL, If given the opportunity! I CAN ALSO BE HAPPY, if given the opportunity!

ONLY YOU can supply the key to the door of opportunity for me!

MY ROLE IN AMERICA'S FUTURE

America — land of the free, home of the brave! In the future, will our country still be the land of the free? With the problems that we face, I feel our freedom may be in jeopardy. In a communistic country, freedom such as freedom of speech is outlawed. Will the freedoms we enjoy and which we take for granted disappear? As a teenager, I believe that the role I play in America's future will be to use and endeavor to preserve the freedoms which are ours: Freedom of speech, press, religion, and freedom to pursue happiness and to bear arms — foundation on which this country was built.

My role in America's future seems to enlarge each day. Among the problems which we as a country face are the energy problem, the Iranian crisis, inflation, space travel; and the list continues to grow. Many people say, "I'm only one person, what can I do?" I find myself asking the same question. I, as an individual, could save fuel by walking instead of riding. I could boycott Iranian products and try to help solve problems within my community. I see part of my role as an individual is to become more knowledgeable of what ensurs not only in my community but also, in our nation. I feel the involvement of everyone — whether it be a man, a woman, or a young child — is of dire need. I've heard people say, "The youth of today are the adults of the future." We, as a group of young adults and as individuals, must become more active; we must solve problems which will benefit future generations. Knowledge that will cure diseases such as cancer or arthritis or that will find a new source of fuel could greatly increase future generations' well-being.

Being active in what happens now will help me face the future with a head start, for the role of a young man in America today is vast. One role is that of preserving the God given rights to each citizen. These rights are often taken for granted, but I, for one, must work for what I may or may not do. Getting the best possible education is my goal. Learning to read with understanding, to write with clarity, to compute figures accurately, and being able to understand my fellow man are essential in coping with the future.

My role in the future is to become more knowledgeable about foreign and domestic affairs including: the energy shortage, the fight against inflation, the corruption of politicians, and other issues important to my country and to its well-being. We are no longer isolated from the rest of the world. America must be a leader among nations. I must use my right as a citizen to vote, to help elect the best persons to office — those who will work to solve the problems we face. I must promote good causes such as raising money for community activities, hunger programs, and to help needy persons. If I do my part to become aware of the problems in my my environment, it will be one step closer to re-establishing the faith of not only our people but also those of other countries. I will work to achieve my goal and to convince others that we must all unite to do our part to make America's future even brighter.
